

**What is the so called "Travel Assistant" service?**

The "Travel Assistance" service is designed for people traveling or living outside of the Republic of Bulgaria. The information you provide after you register will help the respective Bulgarian embassy to contact you in case of crisis and provide you with the best possible assistance in emergency situations such as disasters, acts of terrorism, civil unrest or war.

The method of registration is described on the website of the Ministry in the window that opens when you activate the "Travel Assistant" section, as well as after the information published for each destination.
