Asahi-City

## Please visit Asahi City!

Asahi City has been working hard to attract pre-camps for 2020 Tokyo Olympics and Paralympics.

Asahi City has a mild climate. Facing the Pacific Ocean, it is relatively cool even during the summer, therefore I think we can offer an ideal environment to athletes where they can best prepare for the matches. Benefitting from the climate, greenhouse horticulture, animal husbandry, rice cultivation are widely performed. We can obtain all athletes need within the city.

Asahi-shi General Gymnasium has a main arena, and second arena, both are installed with air-conditioning. There are 40 boards for table tennis. Wifi service is provided at the lobby area of the gymnasium. Training room has weight training equipment. There are shower rooms and meeting rooms available in the premises. Exclusive usage of these facilities can be arranged with negotiations.

If you choose Asahi City for your camp site, we can arrange, upon request, a pick up at Narita International Airport, rides between the hotel and training site(s), and to the Olympic Village. Further arrangements can be negotiated to meet your needs.

During your stay, we would like to offer an opportunity for a cultural exchange. I would like athletes to have a relaxing time by experiencing light sports apart from table tennis, and Japanese culture such as calligraphy and tea ceremony.

I sincerely hope that Republic of Bulgaria and Japan continue to build a friendly relationship and both countries develop even more, and athletes from both countries show spectacular performances in the Tokyo 2020.

Tadanao Akechi  
Mayor of Asahi City

## ■ Asahi City profile

### □ Summary of Asahi-City

Asahi City, located in the northeastern part of Chiba Prefecture, there from Chiba 50km zone, also from Tokyo to the 80km zone. South facing the beautiful bow-shaped Kujukuri Beach, in the north it has spread granary and rolling hills.

Taking advantage of the rich natural, horticulture, animal husbandry, rice cultivation, including the thriving agriculture, such as the open field vegetables, water industry, commercial, industrial, etc., is a town that is well-balanced growth.

On the other hand, to cover about 100 million people of Ibaraki Prefecture, southeast from the eastern part of Chiba Prefecture, such as having the Asahi Central Hospital of the national top class, it has a side as a medical city.

The average temperature of the year is warm and around 15 °C, warm in winter, summer is the cool climate.
