Please note that to make an EDA on - line application you will need to create your EDA profile using a valid e - mail address and a password.

1. BACKGROUND

The European Defence Agency (EDA) was established on 12 July 2004, and is governed by Council Decision (CFSP) 2015/1835 defining the statute, seat and operational rules of the European Defence Agency. The Agency has its headquarters in Brussels.

The main task of EDA is to support the Council and the Member States in their effort to improve the Union's defence capabilities in the field of crisis management and to sustain the Common Security and Defence Policy (CSDP) as it currently stands and as it develops in the future.

The Agency is structured into four directorates. The Corporate Services Directorate (CSD) and three operational directorates: Industry, Synergies and Enablers (ISE); Capability, Armament & Planning (CAP); Research, Technology and Innovation (RTI).

2. THE AGENCY'S WAY OF WORKING

The Agency is an "outward-facing" organisation, constantly interacting with its shareholders, the participating Member States, as well as with a wide range of stakeholders. It works in an integrated way, with multi-disciplinary teams representing all of the Agency's functional areas, to realise its objectives. Its business processes are flexible and oriented towards achieving results. Staff at all levels need to demonstrate the corresponding qualities of commitment, flexibility, innovation, and team-working; to work effectively with shareholders and stakeholder groups, formal and informal; and to operate without the need for detailed direction.

3. THE CAPABILITY, ARMAMENT AND PLANNING DIRECTORATE (CAP)

The Capability, Armament & Planning Directorate (CAP) identifies and proposes collaborative opportunities in support of EU capability development priorities.

The Directorate is responsible for planning and conducting capability development based on analysis of military requirements conducted together with Member States within the Capability Development Plan (CDP).

The Directorate coordinates in-house the implementation of the Coordinated Annual Review on Defence (CARD), establishing a regularly updated overview of the European defence capability landscape, in coordination with the European External Action Service (EEAS), including the EU Military Staff (EUMS).

The CAP Directorate implements EDA's secretariat functions to the Permanent Structured Cooperation (PESCO), together with the EEAS, including the EU Military Staff. Within the PESCO secretariat, the Directorate coordinates EDA's assessment of PESCO project proposals from the capability perspective, as well as the National Implementation Plans of PESCO participating Member States and supports PESCO project implementation.

Based on coordinating the results of CDP, CARD and PESCO, the Directorate plans and prepares capability development activities and projects tailored to Member States' needs. These activities span from advice and roadmaps to collaborative capability development projects, including the support to Member States upstream of the European Defence Fund.

The CAP Directorate comprises six Units with the following key areas of activity:

- Air Domain Unit: Air Combat, Air ISR Platforms, Anti-Access/Area-Denial, Air-to-Air Refuelling, Strategic and Tactical Air Mobility
- Cooperation Planning Unit: CDP, CARD, Defence Data
- Land and Logistics Unit: Land platforms, Counter-IED, Personnel Recovery, Military Mobility, Logistics, Medical Support
- Information Superiority Unit: Communication & Information Systems, Surveillance & Reconnaissance, Space, Cyber Defence
- Maritime Unit: Maritime Surveillance, Mine Counter Measures, naval training, harbour protection
- PESCO Unit: PESCO secretariat, assessment and support to project development

4. DUTIES

Under the supervision of the Head of Unit Land and Logistics, the Project Officer Medical Support will contribute to the effective implementation of ongoing activities and projects within the European Defence Agency (EDA) that are related to military medical capabilities. More specifically, the jobholder will be responsible for the following activities:

- contribute to capability development to improve Member State (MS) capabilities. The work entails, in particular, conceptual work, doctrinal as well as training and exercise aspects, technical developments and operational activities;
- create synergies between military and civilian capability development for the benefit of MS Armed Forces and CSDP missions and operations;
- participate in the definition of capability requirements and contribute to the overall EDA Capability Development activities, in accordance with EDA's Core tasks;
- inspire, plan and manage the implementation of the 2023 EU Capability Development Priority "Medical Support";
- development and update of the Priority Implementation Roadmap (PIR) to implement the EU Capability Development Priority "Medical Support";
- establish and manage the Capability Expert Group (CEG) Medical and related Ad-Hoc Working Groups, as appropriate, in support of MS Capability development efforts, based on the experience from the Project Team Medical;
- contribute, as appropriate, to the assessment of PESCO project proposals, the European Defence Fund (EDF) project

proposals, and current/upcoming European Commission instruments proposals, upon Member States' request;

- organize meetings and workshops, as required, and handle the related EDA Collaboration Platform workspaces;
- support ad-hoc projects, which are in Member States' interest, facilitating and running EDA projects, such as Multinational Medical Modular Unit and Multinational Medical Evacuation, including possible aggregation of demand activities towards joint procurement;
- monitor activities in the field of Research, Technology & Innovation and Armaments in a transversal, cross-Directorate approach;
- maintain the appropriate links with participating Member States and relevant other interested parties like the Council General Secretariat, the European External Action Service, the European Commission and Agencies as well as NATO;
- represent the Agency during conferences and seminars;
- take on additional tasks as required in the interest of the service.

Duties may evolve according to development of the EDA's structure and activities, and the decisions of EDA management.

5. CONDITIONS FOR SECONDMENT

In accordance with the Rules applicable to national experts and military staff on secondment to the European Defence Agency (Council Decision (EU) 2016/1352), Seconded National Experts are seconded to the Agency while remaining in the service of their national employer and continue being paid their national salary by that employer.

Therefore, to be considered in the selection process, candidates for SNE posts must be sponsored by their national authorities. Confirmation is required in the form of a letter of sponsorship addressed to the Agency as far as possible by the closing date for the receipt of applications and in any case before a decision is taken by EDA on the candidate to be selected for a secondment.

The Rules are available on the EDA website <http://www.eda.europa.eu> - vacancies.

To qualify for secondment to the Agency, experts shall:

- have worked for their employer on a permanent or contract basis for at least 12 months before their secondment;
- remain in the service of their employer throughout the period of secondment and continue to be paid by that employer;
- have at least three years' full-time experience in defence, administrative, scientific, technical, operational, advisory or supervisory functions relevant to the performance of the duties assigned to them. Before the secondment, the employer shall supply the Agency with a statement of the expert's employment covering the previous 12 months;
- be nationals of a participating Member State or falling within the provisions of the second paragraph of Article 1 of Council Decision (EU) 2016/1352 of 4 August 2016;
- have a thorough knowledge (minimum level C1 oral and written) of one official language of one of the participating Member States and a satisfactory knowledge (minimum level B2 oral and written) of another of these languages for the performance of their duties.

For native English speakers, your ability to communicate in another EU language will be tested during the selection process.

To assess your foreign language levels, see: <https://europa.eu/europass/en/common-european-framework-reference-language-skills>

6. SELECTION CRITERIA

A. Essential

Only applications meeting all essential selection criteria will be assessed.

(1) Professional

Candidates will be required to demonstrate the following qualifications:

- a military logistic planning background, with consistent expertise in medical support, preferably with strategic assignments and operational experience;
- a thorough understanding and professional experience of the challenges in EU Defence, including CSDP operations and missions, and the competence necessary to propose effective short, medium and long-term solutions related to medical support in operations;
- knowledge of and proven experience in medical support capability development, with proven experience in at least one of the following domains: operational medical planning; military medical logistics; healthcare management;
- a track record of delivering successful business outcomes related to projects/programmes/studies in the military medical area, including proven project management skills;
- familiarity with the international defence environment in general and especially with EU, including a good understanding of the EDA's core tasks and functions;
- familiarity with NATO military medical support planning, doctrine and structure, to guarantee full coherence of EU efforts in medical capability development;
- sound knowledge of public procurement and related EU regulations, including experience in drafting procurement-related documents, notes and briefs;
- a very good knowledge of written and spoken English.

(2) Personal

All staff must be able to fit into the Agency's way of working (see para. 2). Other attributes important for this post include:

- organisational and analytical skills;
- ability to work in team and independently in his/her area of responsibility;
- ability to work effectively in a multinational environment;
- flexibility and innovativeness;
- results-orientation and strong motivation;
- genuine commitment to the Agency's objectives.

B. Desirable

The following will be considered an advantage:

- a military medical background;
- experience in managing innovative initiatives to strengthen medical support by leveraging Emerging Disruptive Technologies, like Robotics and Autonomous Systems and AR/VR systems;
- international experience in military medical support;
- a University degree in Medicine and/or Biomedical engineering.

7. INDEPENDENCE AND DECLARATION OF INTEREST

Selected candidates will be required to make a declaration of commitment to act independently in the Agency's interest and to make a declaration in relation to interests that might be considered prejudicial to their independence.

8. APPOINTMENT AND CONDITIONS OF EMPLOYMENT

The Project Officer Medical will be appointed by the Chief Executive.

Secondment will be as a member of the Seconded National Expert staff of the Agency for a three-year period. Renewal is possible within the limits set out in the EDA SNE Rules. The successful candidate will be seconded as AD10/AD11 equivalent.

Applications are invited with a view to establish a reserve list for the post of Project Officer Medical at EDA. This list will be

valid until 31/12/2026, and may be extended by decision of the Chief Executive. During the validity of the reserve list, successful candidates may be offered a secondment in EDA according to their competences in relation to the specific requirements of the vacant post. Inclusion on the reserve list does not imply any entitlement of secondment to the Agency.

9. EQUAL OPPORTUNITIES

EDA is an equal opportunities employer and accepts applications without distinction on the grounds of age, race, political, philosophical or religious conviction, sex or sexual orientation and regardless of disabilities, marital status or family situation.

10. APPLICATION PROCEDURE

Candidates must submit their application electronically solely via the EDA website. Applications by any other means (hard copy or ordinary e-mail) will not be accepted. Applications must be submitted no later than midnight. Candidates are reminded that the on-line application system will not accept applications after midnight (Brussels time, GMT+1) on the date of the deadline.

In order to be considered in the selection process, candidates for SNE posts must be sponsored by their national authorities. Confirmation is required in the form of a letter of sponsorship addressed to the Agency as far as possible by the closing date for the receipt of applications and in any case before a decision is taken by EDA on the candidate to be selected for a secondment.

A selection panel will be appointed. Please note that the selection panel's internal proceedings are strictly confidential and that any contact with its members is forbidden. Each application will be screened based on the requirements of the job profile stated in the vacancy notice. The most suitable applicants will be called for an interview and a written test. If recruited, you will be requested to supply documentary evidence in support of the statements that you make for this application. Do not send any supporting or supplementary information until you have been asked to do so by the Agency.

Please note that once you have created your EDA profile, any correspondence regarding your application must be sent or received via your EDA profile. For any prior enquiry, please refer to the FAQ (Frequently asked questions) section, or send an e-mail to recruitment@eda.europa.eu.

EDA will not accept any phase of the selection & recruitment process prepared or assisted, in whole or in part, by means of generative artificial-intelligence (AI) tools, including and without limitation to chatbots, such as Chat Generative Pre-trained Transformer (Chat GPT), or other language generating tools.

EDA reserves the right to screen applications to identify the use of such tools. All applications prepared, in whole or in part, by means of such generative or creative AI tools may be rejected without further consideration at EDA's sole discretion, and EDA reserves the right to take further steps in such cases as appropriate.

11. DATA PROTECTION

Please note that EDA will not return applications to candidates. The personal information EDA requests from candidates will be processed in line with Regulation (EU) N° 2018/1725 of the European Parliament and of the Council of 23 October 2018 on the protection of natural persons with regard to the processing of personal data by the Union institutions, bodies, offices and agencies and on the free movement of such data, and repealing Regulation (EC) 45/2001 and Decision No. 1247/2002/EC.

The purpose of processing personal data which candidates submit is to manage applications in view of possible pre-selection and recruitment at EDA. More information on personal data protection in relation to selection and recruitment can be found on the EDA website: <http://www.eda.europa.eu/jobs/dataprotection>
