--------------------------------------	--------------------

The selection of candidates will follow the EDA Staff Recruitment Procedure. Candidates must apply for this post via the EDA website <http://www.eda.europa.eu> - vacancies. Please note that to make an EDA on-line application you will need to create your EDA profile using a valid e-mail address and a password.

1. BACKGROUND

The European Defence Agency was established on 12 July 2004, and is governed by Council Decision (CFSP) 2015/1835 defining the statute, seat and operational rules of the European Defence Agency.

The Agency has its headquarters in Brussels.

The main task of the EDA is to support the Council and the Member States in their effort to improve the Union's defence capabilities in the field of crisis management and to sustain the Common Security and Defence Policy (CSDP) as it currently stands and as it develops in the future.

The Agency is structured into four directorates. Three operational directorates: Cooperation Planning & Support; Capability, Armaments & Technology; and European Synergies & Innovation and the Corporate Services Directorate.

2. THE AGENCY'S WAY OF WORKING

The Agency is an "outward-facing" organisation, constantly interacting with its shareholders, the participating Member States, as well as with a wide range of stakeholders. It works in an integrated way, with multi-disciplinary teams representing all the Agency's functional areas, to realise its objectives. Its business processes are flexible and oriented towards achieving results. Staff at all levels need to demonstrate the corresponding qualities of commitment, flexibility, innovation, and team-working; to work effectively with shareholders and stakeholder groups, formal and informal; and to operate without the need for detailed direction.

3. THE EUROPEAN SYNERGIES AND INNOVATION DIRECTORATE

The European Synergies & Innovation Directorate acts as an interface between defence ministries and wider EU policies that have implications for defence. It promotes and supports innovative research, coordinates and promotes EDA actions in the area of dual-use research and, as requested by its Member States, works in support of them and the European Commission on the setting up of the Preparatory Action for CSDP-related research. The directorate is also responsible for market & industry related questions such as policies, analysis and support, as well as strategic foresight and assessment, for the benefit of all the agency. In addition, the directorate has a coordination role of the Agency's energy and environmental activities as well as Space policy activities.

4. DUTIES

The Project Officer Guidance, Navigation and Control deals with important technology areas such as those covering Navigation (including

GNSS), Guidance and Control systems for Weapons and Platforms, Guided Precision Munitions, Inertial and Gravitational devices, Motion Sensors and Environmental Monitoring. The goal is to gather advice from Member States' experts on Guidance and control allowing the identification of technology gaps and common areas of interest for cooperation.

The main objective is to launch collaborative R&T projects that fulfil MS needs and support CapTech Guidance, Navigation and Control. Under the direction of the ESI Director and the Head of the Unit Innovative Research, the Project Officer will contribute to the following activities:

- moderate and chair the Guidance, Navigation and Control CapTech coordinating EDA's relevant activities on the subject of interest;
- contribute to research and technology initiatives aimed at defining capability-led priorities and projects;
- share information on national R&T priorities (top-down approach) or priorities inspired by other EDA work strands;
- contribute to coordination of research and technology in the field of Missile and Air Defence;
- evaluate industrial proposals considered relevant to R&T priorities (bottom-up approach);
- form groups of interested pMS for further preparation of R&T proposals;
- organise and propose workshops on selected topics to widen the contribution and consultation of the expert community;
- propose EDA-funded studies in specific areas to form a common understanding on research requirements;
- assist Project Officers in charge of technology Watch and Forecast Analysis for the several areas covered by the EDA CapTechs with the aim of continuous awareness of new breakthrough technologies and the assessment of the impact that they may have on future military capabilities;
- take on additional tasks as required in the interest of the service.

Duties may evolve according to development of the EDA's structure and activities, and the decisions of EDA management.

5. QUALIFICATIONS AND EXPERIENCE REQUIRED

a. Conditions for eligibility

General

- be a national of a Member State participating in the Agency;
- be entitled to his/her full rights as a citizen;
- have fulfilled any obligations imposed on him/her by the laws concerning military service;
- produce the appropriate character references as to his/her suitability for the performance of his/her duties;
- be physically fit to perform his/her duties;
- have a thorough knowledge of one of the languages of the participating Member States and a satisfactory knowledge of another language of the participating Member States to the extent necessary for the performance of his/her duties;
- have a level of education which corresponds to completed university studies attested by a diploma when the normal period of university education is four years or more; or a level of education which corresponds to completed university studies attested by a diploma and appropriate professional experience of at least one year when the normal period of university education is at least three years; or be a graduate of a national or international Defence College;
- have no personal interest (financial, family relationship, or other) which could be in conflict with disinterested discharge of his/her duties within the Agency;
- hold, or be in a position to obtain, a valid Personnel Security Clearance Certificate (national or EU PSC at SECRET UE/EU SECRET level). Personnel Security Clearance Certificate' (PSCC) means a certificate issued by a competent authority establishing that an individual is security cleared and holds a valid national or EU PSC, and which shows the level of EUCI to which that individual may be granted access (CONFIDENTIEL UE/EU CONFIDENTIAL or above), the date of validity of the relevant PSC and the date of expiry of the certificate itself. Note that the necessary procedure for obtaining a PSCC can be initiated on request of the employer only, and not by the individual candidate).

b. Essential selection criteria

(1) Professional

The candidate will be required to demonstrate that s/he has:

- familiarity with the defence international environment and the EU defence R&T community including both government, industry, institutes and academia;
- specific background knowledge in the area of Guidance, Navigation and Control Systems and Air/Missile Technologies as referred above;
- knowledge and experience in defence European and international R&T collaboration and a track record of delivering successful business outcomes;
- experience in technology watch and forecast processes;
- experience in organisation and chairing of meetings and workshops;
- a track record of delivering successful business outcomes;
- a very good written and spoken English.

(2) Personal

All staff must be able to fit into the Agency's way of working (see para. 2). Other attributes important for this post include:

- team-working skills;
- good interpersonal, communication and influencing skills;
- flexibility, innovativeness, tact with a strong sense of duty and responsibility;
- results-orientation and strong motivation;
- accuracy and dependability;
- ability to adapt to a quickly changing working environment;
- genuine commitment to the Agency's objectives.

c. Desirable

- a minimum of 9 years of professional experience acquired after the award of the qualification;
- a university or engineering degree in a field related to guidance, navigation and control and/or missile and air defence and a broad scientific culture.

6. INDEPENDENCE AND DECLARATION OF INTEREST

The Project Officer Guidance, Navigation and Control will be required to make a declaration of commitment to act independently in the Agency's interest and to make a declaration in relation to interests that might be considered prejudicial to his/her independence.

7. APPOINTMENT AND CONDITIONS OF EMPLOYMENT

The Project Officer Guidance, Navigation and Control will be appointed by the Chief Executive, upon recommendation of the Chairman of the Selection Committee.

Recruitment will be as a member of the temporary staff of the Agency for a four-year period (unless a shorter period is mutually agreed between the parties). Renewal is possible within the limits set out in the EDA Staff Regulations. The successful candidate will be recruited as AD10.

Failure to obtain the requisite security clearance certificate before the expiration of the probationary period may be cause for termination of the contract.

Candidates are advised that part of the recruitment process includes medical analyses and physical check-up with an Agency's Medical Adviser.

Applications are invited with a view to establishing a reserve list for the post of Project Officer Guidance, Navigation and Control at the EDA. **This list is valid until 31/12/2017, and may be extended by decision of the Chief Executive. During the validity of the reserve list,** successful candidates may be offered a post in the EDA according to their competences in relation to the specific requirements of the vacant post.

Inclusion on the reserve list does not imply any entitlement of employment in the Agency.

8. EQUAL OPPORTUNITIES

The EDA is an equal opportunities employer and accepts applications without distinction on the grounds of age, race, political, philosophical or religious conviction, sex or sexual orientation and regardless of disabilities, marital status or family situation.

9. APPLICATION PROCEDURE

Candidates must submit their application electronically solely via the EDA website. Applications by any other means (hard copy or ordinary e-mail) will not be accepted. Applications must be submitted no later than midnight. Candidates are reminded that the on-line application system will not accept applications after midnight (Brussels time, GMT+1) on the date of the deadline.

A selection committee will be appointed. Please note that the selection committee's internal proceedings are strictly confidential and that any contact with its members is forbidden.

If recruited, you will be requested to supply documentary evidence in support of the statements that you make for this application. Do not send any supporting or supplementary information until you have been asked to do so by the Agency.

Please note that once you have created your EDA profile, any correspondence regarding your application must be sent or received via your EDA profile.

For any prior enquiry, please refer to the FAQ (Frequently asked questions) section, or send an e-mail to recruitment@eda.europa.eu.

10. DATA PROTECTION

Please note that EDA will not return applications to candidates. The personal information EDA requests from candidates will be processed in line with Regulation (EC) N° 45/2001 of the European Parliament and of the Council of 18 December 2000 on the protection of individuals with regard to the processing of personal data by the Community institutions and bodies and on the free movement of such data. The purpose of processing personal data which candidates submit is to manage applications in view of possible pre-selection and recruitment at EDA.

More information on personal data protection in relation to selection and recruitment can be found on the EDA website:
