To Read Before You Apply

General remarks

1. You can fill in the application starting with any section (tab) you want (not necessarily in the order in which the tabs are displayed). You can start filling in information regarding the professional experience, for example, and then go back to the personal information.
2. Make sure you save the information before switching to a different tab.

Please note that you can save information either using the **Save**, **Add** or **Upload** buttons available in the page, according to the type of information in the tab. If **no Save** button is available in the page, the information is saved automatically.

If you leave the tab without saving the information, a message will be displayed to inform you that there is unsaved information:

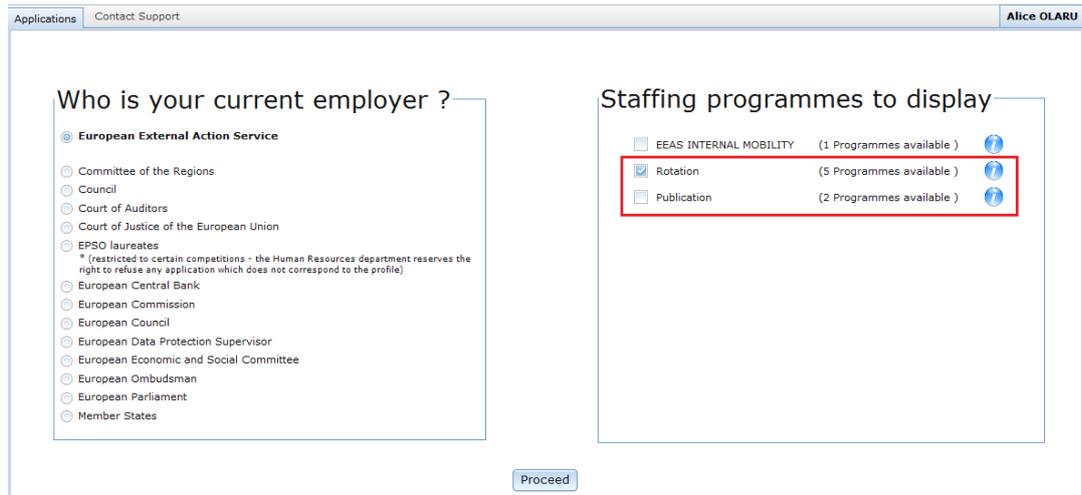

You can click **Back** and go back to that tab and save the information, or you can click **Close** and go on to the next tab without saving it.

3. Fields marked with an asterisk (*) are mandatory fields.

4. If there are mandatory fields which have not been filled in, an exclamation mark  is displayed next to them when the user wants to leave that section.

The e-Application screen

After logging in and accessing the **Applications** menu, the system displays the e-Application screen, where you need to select **your current employer** and a **Rotation Exercise** and/or a **Publication**:

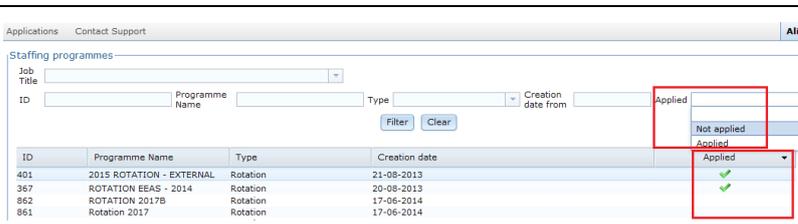

The screenshot shows the 'Applications' menu with 'Contact Support' selected. The user is logged in as 'Alice OLARU'. The main content area is divided into two sections:

- Who is your current employer ?**: A list of institutions with radio buttons. 'European External Action Service' is selected.
- Staffing programmes to display**: A list of programme types with checkboxes. 'Rotation' is checked and highlighted with a red box. 'EEAS INTERNAL MOBILITY' and 'Publication' are unchecked.

A 'Proceed' button is located at the bottom center.

As a result, the system will display the following page whose main purpose is to permit candidates to select the Staffing Programme that they want to apply. To do so, the screen contains filters to easily identify the targeted programme:
