Moreover, we have the pleasure to announce that a congratulatory video on the occasion of Baba Marta will be broadcasted on 1st March, 2022 throughout billboards in Podgorica containing a greeting to Montenegro.

A Martenitsa (*from the Bulgarian name for the month of March*) is a small red-and-white ornament that is worn every March in accordance with an old custom cultivated for centuries. The mutual gifting with Martenitsi is on March 1 and the following week. The red-and-white lucky charms are worn until you see a first spring sign – a stork, a swallow or a flowering tree. Then you hang them on a tree or put them under a stone and make a wish for something beautiful.
